

Overview oregon-covid-19

What is this? Coronavirus (COVID-19) spread in Oregon 2020.

Why/History: I wanted to see visualizations like these when covid-19 was spreading in Oregon, but the visualizations I found just weren't quite this so I created them here. Feel free to reuse this code, share, and open source.

What tools are used?

- **R / RStudio:** Webscraping, tidyverse, mapping & visualization
